How to use it: list every subject, then break each into the lessons you still need to revise. After each past paper, tick a box and re-rate your confidence. Spend the most time on the subjects with the lowest score — not the ones you already enjoy.

A simple countdown plan

6+ MONTHS BEFORE

Finish the syllabus with your school or tuition class. Make a full list of lessons per subject on page 4.

3 – 6 MONTHS BEFORE

Revise one lesson at a time. Start timed past papers every week and mark them honestly.

1 – 3 MONTHS BEFORE

Past papers under exam conditions. Fix weak lessons first. Keep sleep and meals regular.

FINAL 2 WEEKS

Short notes, formulas and mistakes you keep making. No new big topics. Check your timetable and centre.

Exam-day checklist

- ☐ Admission card — read every instruction on it
- ☐ Identity document required on the admission card
- ☐ Subject timetable checked (date, session, time)
- ☐ Exam centre located — travel time planned
- ☐ Blue/black pens, pencil, eraser, ruler
- ☐ Any other item allowed for your subject — check first
- ☐ Watch (not a smart watch)
- ☐ Water bottle and a light snack
- ☐ Phone left at home or with a parent
- ☐ Good sleep the night before
